TRAIN AND TRACK.

The British government will buy all the railroads in South Africa, the colonies to pay interest on the \$65,000,000 necessary to the purchase.

The record for speed in railway construction has been achieved on the Balkhistan railway, which was pushed across a treeless plain at three and a quarter miles a day.

What is said to be the largest railway engine in Britain has made its trial trip from Glasgow to Dundee. It is for passenger traffic on the steep gradients between Carlisle and Perth on the Caledonian line, holds 5,000 gallons of water, carries five tons of coal and weighs 100 tons.

Chinese Firemen.

Chinese firemen seem to be immune to the fierce heat of the fire room on ocean steamers and can stand up to temperatures that would speedily prostrate white men.

Palms.

To keep palms green and fresh looking and remove the dusty and faded appearance of the leaves, wipe each leaf separately with a cloth dipped in milk. This will at once give back their natural gloss and fresh green appearance.

CAUSES OF HAY FEVER.

Hyomei the Only Cure—Gives Change
of Climate in Your Own Home.

Fifty years ago hay fever had not been named, but undoubtedly people suffered then as they do now with storms of sneezing, profuse watering of the eyes, excessive running at the nose, intense smarting and itching and stuffed-up feeling in the head.

The direct causes appear to be heat, dust and the pollen of flowers. Although hay fever may occur at any season of the year, it is most common and severe in August, and preventive treatment should be adopted some weeks before the time the disease is due.

Prior to the discovery of the remarkable effects following the use of Hyomei, the only treatment that gave relief to hay fever sufferers was change of climate. The use of Hyomei enables any one to breathe the air at home which is like that of the Adirondacks, the White Mountains or other health resorts where healing balsams fill the air with nature's germ-destroyer, ozone.

Those who are subject to hay fever should begin the use of Hyomei at once and thus prevent the disease. An ounce of prevention is worth more than a pound of cure in the treatment of hay fever.

Rickert & Wells have seen the good effects following the use of Hyomei in all diseases of the respiratory organs and they are willing to sell Hyomei to any hay fever sufferer with the understanding that if it does not give satisfaction the treatment will cost nothing.

A Seasonable Suggestion

Soda Water

Is always "in season." Whether taken hot or cold it is a wholesome beverage provided the flavoring syrups are all right. Cold Soda drawn from our good fountain looks nothing that could be desired by the most sensitive palate. We use only pure juices made direct from fresh fruits and can give varied flavors. Our "Cold Soda" is always cold.
